SUMMARY

Passionate cybersecurity enthusiast with a strong foundation in application development and hands-on experience building security-focused projects. Familiar with threat monitoring, log analysis, and vulnerability assessment. Eager to learn, solve security challenges, and contribute as an entry-level SOC Analyst.

EDUCATION

Bachelor of computer applications (BCA)

Kirandevi Saraf Institute Of Complete Learning

08/2023 – 07/2026

Mumbai, Maharashtra

SKILLS

- | | |
|-----------------------|----------------|
| • Python | • Java |
| • Flutter | • Nmap |
| • Burfsuite | • Wireshark |
| • Linux & Windows | • Excel |
| • Networking | • Log Analysis |
| • Threat Intelligence | • MITRE ATT&CK |

PROJECTS

Eduguidence – College & Course Finding App

Developed a college and course discovery application that helps students find suitable colleges and courses based on their requirements. Integrated a user-friendly interface with backend services for managing college and course information.

Rent My Car – Car Rental Website

Developed a web-based car rental platform that allows users to browse available cars, view rental details, and make rental requests. Implemented features for managing car listings, user information, and rental operations.

SentinelShield – Real-Time Security Operations Center (SOC) Dashboard

Developed a real-time SOC dashboard for monitoring security alerts, analyzing threats, and tracking incidents. Integrated threat intelligence, severity-based metrics, attack visualization, role-based access, and real-time alerts using WebSockets.
